Adhesive Tapes & Teflon Films Belts

MEDICAL DEVICE, PHARMACEUTICAL AND INDUSTRIAL APPLICATION

PTFE Coated Fiberglass Industrial Fabrics have been developed for the most demanding industrial applications, and when coated with an acrylic or silicone-based adhesive are easily applied for your sealing application. Our High Heat PTFE Fiberglass Tapes are manufactured in several thicknesses and grades, with and without release liners.

Sealing Bands for continuous sealing are endless belts made from PTFE Fiberglass fabric and are available in 2 constructions: Single Ply with an overlap splice, or 2-Ply with a staggered splice, resulting in a belt with even thickness throughout.

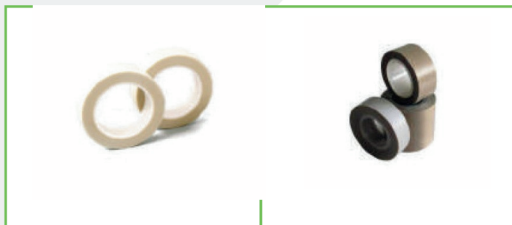

PTFE Fiberglass sheeting (or fabric) is dimensionally stable in a range of temperatures from -100° to +550°F (-73° to 288°C) and is FDA compliant (21 CFR 177.1550) for use in food processing, packaging and handling. H&M Industries can supply you with the correct material and slit it to the size you require.

MEDICAL DEVICE, PHARMACEUTICAL AND INDUSTRIAL APPLICATION

Hight Composite is a leading provider of band sealers, sealing bands, heat resistant tapes & fabrics to clients in the South Texas including Mexico, Costa Rica, Central America, and the Caribbean's.

Hight Composites & Tapes offers Teflon impregnated fiberglass cloth (no adhesive). For use in a wide variety of applications including sealers, packaging machines, heat platens and hot plates. The cloth is available in 3mil (.003"), 5m11(.005"), 6mil (.006") and 10mil (.010") in rolls up to 36" wide. Rolls are 36 yards long. If you don't see the size you need call us for a quote. We also have Teflon tapes!
